Walls Made Washable

"I like kalsomine effects, but I want a wall finish that can be cleaned or washed."

This is a frequent inquiry at our store because the up-to-date housekeeper demands a sanitary finish that doesn't need replacing every year.

ACME QUALITY
NO-LUSTRE FINISH

is a sanitary, washable finish. It is put on like paint, but dries quicker and velvety in appearance. Comes in shades and tints especially adapted to artistic interior decoration.

Ham Honesty

YOU wouldn't give a child a bottle of poison to play with.

Yet when you let a child eat ham that is unreliable you run about the same risk.

Some ham, as you very well know, is not fit to eat. It's not properly cured, and it's kept from rotting by poisonous preservatives barred by the pure food law.

It is your duty to buy ham only where you know you'll get the real article. This is most important. Buy here.
